

NFAC 6286-80

16 September 1980

MEMORANDUM FOR:

25X1

[redacted]
Chief, Development and Analysis Center, OER

FROM:

Senior Review Panel

SUBJECT:

Draft Memo re Progress in Establishing a New
Intelligence Publication, dated 11 Sep 1980

1. Without going into the numerous pros and cons of the proposal, the Panel considers that the draft as now formulated overstates an appropriate and acceptable role for the Panel. As outlined in our conversations, if so requested by D/NFAC, we would be willing to read and comment on incoming contributions, in an advisory, off-line, capacity, much as we do for interagency or NFAC papers. We do not believe we should, or could, act as the sole screening body; operate in the publications chain of command; or negotiate form or content with outside contributors.

2. We would appreciate your clarifying these views in your draft. We would be glad to participate in future discussions of the project with the DCI or D/NFAC.
